## EDUCATION

Bootham School - York, England

^ A level qualification

2019 - 2021

I am currently studying 4 A-level subjects - Mathematics, Further Mathematics, Physics and Psychology. I am doing an EPQ (Extended Project Qualification), a year-long research project, about the field of Artificial Intelligence. I am doing a Challenge Course in Computer Science. I am also a tutor for younger children who need help with their schoolwork.

Gimnazija "Slobodan Škerović" - Podgorica, Montenegro

^ completed first two years of high school

2017 - 2019

I opted for the Natural Sciences path and had 12 different subjects including Advanced Geometry, Advanced Algebra, Programming, Physics, French, English etc. I scored top marks in all of my subjects. I was also a class representative, and an active member of the Student Council.

## AWARDS & HONORS

- An HMC full scholarship recipient
- School valedictorian
- Winner of school competitions in mathematics, physics, chemistry and biology
- National representative on different contests

## LANGUAGES

English - Proficient

Montenegrin - Native

Serbian - Fluent

French - Conversational

Spanish - Beginner

## VOLUNTEERING

GirlsWhoCode - local American Corner, EducationUSA

Assisting during weekly workshops for girls aged 6-15. I helped with translating the coursework and demonstrating how to access the online resources. I helped when somebody had an issue with the software, or when somebody had trouble understanding the materials.

Volunteering Club - Gimnazija "Slobodan Škerović"

Participating in one-off actions, such as celebrating the World Volunteering Day or planning fundraising events.

## PROFESSIONAL EXPERIENCE

Urivi Vikram Charitable Trust - Web Development Intern

Responsible for managing the website at uvct.org and creating promotional materials such as banners and posters for social media. It was a 3 months long position.

The Junior Academy - The New York Academy of Sciences

Part of a global network of people interested in STEM working together to solve problems affecting our world. Participated in the Sustainable Development challenge and a finalist in the Future of Buildings and Cities challenge sponsored by the United Technologies.
